

QUALITY POLICY STATEMENT

The policy of Agrilek Limited is to consistently meet or exceed Customers' contractual expectations. Our goal is to ensure that the best possible products or services are supplied to our valued customers. To achieve this, Agrilek Limited, have established, and maintain, an effective and efficient Quality Management System, which has been planned and developed in conjunction with other management functions.

It is our aim to continually improve upon our services, processes and our quality management system. As part of this philosophy we will set quality objectives throughout the organisation which will be measured against and reported upon.

The Quality Manual, and the associated procedures outlined herein, describe how the Agrilek Limited, Quality Management System is designed to ensure that the customer's Quality requirements are recognised and communicated throughout the Company ensuring consistent and uniform control of these requirements are adequately maintained.

The management of Agrilek Limited, is firmly committed to the procedures included in this manual. Through detailed documented procedures and appropriate training, they ensure the complete understanding and implementation of the requirements of the Quality Management by all levels of personnel within the organisation.

For this purpose Quality Management Representatives are entrusted with the authority and responsibility for the control of the Quality Management System. However, all personnel within Agrilek Limited, are responsible for the quality of their work and adherence to the defined systems. They are also responsible for bringing to the attention of the Management Representatives any deficiencies, either real or potential, for timely and effective preventative and corrective action.

This Quality Manual and the associated procedures accurately and adequately describe the Quality Management System in use within Agrilek Limited, to meet the requirements of BS EN ISO 9001:2008.

It is the policy of Agrilek Limited, to provide reasonable access to a customer's representative to ascertain the effectiveness of the Quality Management System being operated by Agrilek Limited, provided this is agreed contractually.
